

MITEL

5302 | IP Phone**Slim, dual-port, two-line, entry-level IP phone.**

The Mitel® 5302 IP Phone is an economical, entry-level IP desktop device that takes advantage of the cost savings of a converged network infrastructure. It provides basic telephony features and PC connectivity in a two-line phone.

It is ideal for locations that only need basic call handling features, e.g., as a point of sale phone for the retail market, as a second guestroom phone for the hospitality market, a classroom phone, a patient room phone. The phone's footprint is smaller than other IP phones, and it can be desktop or wall mounted.

Two Line, Two Ports

Handle more than one incoming call with the 5302 IP Phone's two lines, and still use voice mail as a backup option. Dual-port capability means only a single LAN drop is required for both voice and data – no need for additional wiring to add a PC.

IP Paging

Though it is an entry-level phone, the 5302 IP Phone provides important user-friendly paging features that are applicable in multiple environments (e.g., healthcare, schools).

Additional Features

- 2 lines with LED indication
- 3 fixed feature keys: hold, redial, transfer
- 4 programmable keys: e.g., speed dials, feature access codes, paging, conferencing, voice mail access
- Paging and page receive capability
- Set to set paging
- V4 handset (3.4 KHz)
- Incoming call visual indication
- Message waiting indication
- Adjustable volume up / down
- Adjustable ringing up / down
- Adjustable speaker (paging) volume
- 12-button numeric keypad
- Speaker for receiving pages
- SIP protocol
- Security: SIP authentication
- Support for DHCP addressing
- Wall mountable (optional)
- Multiple powering options (802.3af compliant)
- ADA compliant (hearing aid compatible (HAC) handset)
- Small footprint (19cm x 10cm or 7.5" x 4")

it's about **YOU**

3300 ICP System Requirements

- Mitel 3300 IP Communications Platform (ICP), Release 8.0 (UR2)
- The maximum number of 5302 IP Phones supported on the various 3300 Controllers is as follows:

Controller	Maximum Number of IP Devices	Maximum Number of 5302 IP Phone Devices
3300 CX Controller / 3300 CXi Controller	100	100
3300 AX Controller	100	100
3300 MXe Controller Standard	300	300
3300 MXe Controller Expanded	1,400	1,000*
3300 MXe Server	5,000	1,000*

* This is a SIP license limitation.
